

Great Lakes Access is open and ready to support your business!

We support the “Critical Infrastructure Sectors” and will remain fully operational to support your businesses.

As an essential supplier and service provider we will continue to sell as well as rent lifts and provide parts and services to keep your equipment up and running.

We are also here to support your business while being sensitive to our communities needs.

Most importantly we want to assure you that your safety and well being is our top priority and that's why we have taken all the necessary measures recommended by the CDC for you and our employees to stay healthy.

These are some of the measures we have taken:

Our employees are not to shake hands to limit exposure for all parties involved.

We are sanitizing hard surfaces that you may come in to contact with.

We ask that no more than two customers are in our building at any time and that you remain only in the front of our building.

Employees are washing their hands frequently with soap and are avoiding touching their eyes, mouth and nose.

When coughing or sneezing our employees are asked to cover their mouth with their elbow or tissue.

If an employee is feeling unwell, we have instructed them to stay home, even if their symptoms are minor.

Travel has been limited to essential business. Phone/video meetings are taking place whenever possible to limit unnecessary contact.

We are working and will continue to work with our customers and communities to be part of the solution.

COVID-19 response is fluid as it is an ever changing situation and rest assured we keep monitoring it to make sure we are doing everything we can to not only follow guidelines but to help our community and our employees.

Please feel free to reach out to me with any questions @616-291-5466 or tom@greatlakesaccess.com

We thank you for your business and your patience in these trying times.

Tom Hammerslag
President
Great Lakes Access, Inc.
